ACCESSIBILITY PLAN

Monitoring

The implementation of the policy will be monitored by the Deputy Headteacher (Pastoral)

Evaluation

The policy was reviewed annually by the Assistant Headteacher (SEND link) and Senior Leadership Team on 31st October 2024 prior to the submission of the policy to Governors' Community Committee for scrutiny and recommendation to the Full Governing Board for approval.

Key policy dates:

Ratified by the Full Governing Board: 11th December 2024

Review frequency: Every year

Next policy review commences: Autumn Term 2025

1. INTRODUCTION

The Equality Act 2010 provides a single, consolidated source of discrimination law, covering all the types of discrimination that are unlawful. It simplifies the law by removing anomalies and inconsistencies that had developed over time in the existing legislation, and it extends the protection from discrimination in certain areas.

The overriding principle of equalities legislation is generally one of equal treatment.

As in previous legislation school must not discriminate against a pupil because of something that is a consequence of their disability.

It is unlawful for a school to treat a disabled pupil unfavourably. Such treatment could amount to:

- Direct discrimination
- Indirect discrimination
- Discrimination arising from a disability
- Harassment

2. DEFINITION OF DISABILITY

Equality Act 2010: a person has a disability if:

- They have a physical impairment
- The impairment has a substantial and long-term adverse effect on their ability to perform 'normal' day to day activities

For the purposes of this Act, these words have the following meanings:

- Substantial – means more than minor or trivial
- Long term – means that the effect of the impairment has lasted or is likely to last for at least 12 months
- Normal day-to-day activities – this includes everyday occurring situations such as eating, walking, going to the bathroom

Impairment does not itself mean that a pupil is disabled but rather it is the effect on the pupil's ability to carry out normal day-to-day activities in one or more of the following areas that must be considered:

- Mobility
- Manual dexterity
- Physical coordination

- Contenance
- Ability to lift, carry or otherwise move everyday objects
- Speech, hearing or eyesight
- Memory or ability to concentrate, learn or understand
- Perception of risk of physical danger

3. REASONABLE ADJUSTMENTS

We have a duty to make reasonable adjustments for disabled pupils:

- When something we do places a disabled pupil at a substantial disadvantage to other pupils, we must take reasonable steps to avoid that disadvantage
- We will be expected to provide an auxiliary aid or service for a disabled pupil when it would be reasonable to do so, and where such an aid would alleviate any substantial disadvantage the pupil faces in comparison to his non-disabled peers

The test is whether the adjustment is reasonable, and if it is then there can be no justification for why it is not made. We will not be expected to make adjustments that are not reasonable. There is currently, no clarity on what may be 'reasonable' although the Code of Practice will include factors that should be taken into account. It will be for us to decide the reasonableness of adjustments based on the individual circumstances of each case.

Factors to consider may include the financial or other resources available, the effectiveness of the adjustment, its effect on other pupils, health and safety requirements, and whether aids have been made available through the SEND route.

4. AIMS OF THE ACCESSIBILITY PLAN

The aims of this accessibility plan are to ensure that St Gregory's RC High School continues to work towards increasing the accessibility of provision for all pupils, staff and visitors to the school.

Schools are required to have an Accessibility Plan detailing:

- how they will improve access to the physical environment
- how they will increase access to the curriculum for disabled pupils
- how they will improve the availability of accessible information to disabled pupils

At St Gregory's RC High School, we have a commitment to equal opportunities for all members of the school community and our Accessibility Plan outlines our intention to remove barriers for disabled pupils and to:

- increase the extent to which disabled pupils can participate in the different areas of the national curriculum
- increase access to extra-curricular activities and the wider school curriculum
- improve the physical environment of school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary.

We strive to ensure that the culture and ethos of the school are such that, whatever the abilities and needs of members of the school community, everyone is equally valued and treats one another with respect - *'one family inspired to learn'*.

All pupils should be provided with the opportunity to experience, understand, and value diversity.

Our school aims to treat all pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

St Gregory's RC High school is committed to a fair and equal treatment of all individuals able bodied or disabled and, on a continuous basis, will work towards improving access to the physical environment, to the curriculum and to the provision of information to ensure access for all.

Our school is committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan. We work closely with the sensory support service to ensure that we are informed of any difficulties that pupils with VI (visual impairment) or HI (hearing impairment) have in accessing the school site.

5. KEY OBJECTIVES

The key objectives of our Accessibility Plan are as follows:

- To reduce and eliminate barriers to access to the curriculum and to enable full participation in the school community for pupils, and prospective pupils, with a disability
- To provide a fully accessible environment which values and includes all pupils, staff, parents/carers and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs
- To commit to challenging negative attitudes about disability and accessibility and to develop a culture of awareness, tolerance and inclusion

- To provide all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles- setting suitable learning challenges; - responding to a pupil's diverse learning needs; - overcoming potential barriers to learning and assessment for individuals and groups of pupils

6. THE PURPOSE AND DIRECTION OF THE SCHOOL'S PLAN: VISION AND VALUES.

Our small size allows us to know each pupil as an individual yet still provide big school success and huge opportunities. We aim to provide a caring, but challenging environment that pushes pupils to achieve the very best academic outcomes.

Our School has high ambitions for all pupils (*ambition for all*), including those with disabilities and expects them to participate and achieve in every aspect of school life. We are committed to identifying and then removing barriers to disabled pupils in all aspects of school life. We value the individual and the contribution they make to all aspects of school life (*positive footprint*) and will strive to ensure that our disabled pupils have access to all areas of the curriculum and teaching resources to develop fully in their education.

We will continue to focus on removing barriers in every area of the life of the school and are committed to embracing equal opportunities for all members of the school community.

7. CURRICULUM

The school is committed to providing a healthy environment that enables a full curriculum access and values and includes all pupils regardless of their education, physical, sensory, social, spiritual, and emotional needs.

No pupil is excluded from any aspect of the school curriculum due to their disabilities or impairments and all is put in place where required to ensure all needs are accommodated.

The school aims to provide an adapted curriculum to enable all pupils to feel secure and make progress.

Physical Education lessons will be adapted, wherever possible, to allow pupils with disabilities to participate in lessons and where areas of the curriculum present challenges for a pupil these will be dealt with on an individual basis. The SENDCO, in discussion with the pupil, the parents/carers and where required external agencies, will ensure that all adjustments possible, in line with common sense and practical application, will be made for any disability or impairment and ensure this information is disseminated to the staff.

Procedures to establish identification and support of pupils with SEND in place in the school will be regularly reviewed and monitored to ensure they are effective with detailed information on pupils with SEND shared with the relevant staff to aid teaching for example, pupils pupil passports.

The SEND team will work closely with the VI and the HI team and ensure where required, specialist resources will be made available for pupils with hearing impairments and for visual impairments and difficulties in accordance with their recommendations.

Assessment:

Provision is made for Children with SEND support or an EHCP through access arrangements in class by teacher provision or teaching assistant support for example a reader/scribe/laptop/coloured paper/prompter/extra time or oral language modifier.

APPENDIX A

<u>ITEM</u>	<u>ISSUE</u>	<u>GREEN</u>	<u>AMBER</u>	<u>RED</u>	<u>ACTION PLAN</u>	<u>COST</u>
1	Is furniture and equipment selected, adjusted and located appropriately?					
2	Are pathways and routes logical and well signed?					
3	Are there emergency and evacuation procedures for specific pupils in place?					
4	Is appropriate furniture and equipment provided to meet the needs of individual pupils?				Whilst the needs are being met overall more consideration needs to be given to: <ul style="list-style-type: none"> - Access for some pupils to PE lessons. - Adaptations for pupils in a wheelchair in technology rooms 	
5	Do furniture layouts allow easy movement for pupils with disabilities?				Seating plans are used to ensure that pupils with disabilities and additional needs are seated appropriately.	
6	Are quiet rooms/calming rooms available for pupils needing this facility.				A calming sensory room has been created to allow this option for pupils as and when needed.	
7	Are car park spaces reserved for disabled people near the main entrance?					
8	Where there are steps/staircases do they have colour contrasting edging?				Yes – we have light grey stairs with black edging.	
9	Is there a continuous handrail on each stair flight and landing?				On each stair flight yes but not on the landing – is this needing to be implemented?	
10	Is it possible for wheelchairs to move around the building unaided?					
11	At the waiting area of the main entrance is it possible for a wheelchair user to get through unaided?					

12	Do all internal doors allow a wheelchair user to get through unaided?					
13	Do all corridors have a clear unobstructed width of 1.2m?					
14	Does each area of the school have a wheelchair accessible toilet?					
15	Is there accessibility to changing rooms/shower facilities?					
16	Do all upper areas have a lift that can be accessed by wheelchair users?					
17	Is it possible for a wheelchair user to use all fire exits from areas to which they have access? Is there a plan for if they are on the upper floor?				We have a specific PEEP where required personalised as relevant.
